

Alex Matiasevich

Technical Leader • R&D Engineer • Software Architect

T-shaped technical leader: deep engineering expertise combined with strategic thinking.

*More than **10 years** of experience in web development, UI/UX design and project management.*

Strong technical, communication and leadership skills. Positive thinking without toxicity.

Location

Buenos Aires, Argentina (GMT-3)

Available for other time zones.

Remote work

Yes, please.

Languages

- English (fluent, technical)
- Spanish (intermediate)
- Russian (native)

Skills & Experience:

- Team leadership
- Modern JavaScript, TypeScript
- Modern frontend: frameworks, architecture, modern browser APIs
- Widgets & micro-frontends
- Complex application architecture

- Node.js
- PostgreSQL, MongoDB, Redis
- RabbitMQ, Kafka
- Docker, Kubernetes
- Nginx, Apache
- Cloudflare, AWS, Google Cloud, etc.
- AI Engineering, MCP, WebMCP, etc.
- JAMStack, SSG, SSR, SPA
- Canvas API, SVG, WebGL
- Web Components: Custom Elements, Shadow DOM, etc.
- Isomorphic approaches: one codebase for client and server
- Modern CSS and design systems
- UX/UI Design
- Design-in-code
- 2D/3D graphics
- Graph data structures
- Dialog interfaces
- Open Source project maintenance
- Effective development: dependency management, resource consumption control, flexible architectures
- R&D skills
- DevRel activities
- Technical interviews, candidate assessment

Career

Worked in various large and small technology companies and startups:

- Current position -- Tech Lead / CTO at **rnd-pro.com**
- Highest position -- Co-founder & CEO at **[Megavisor](#)**

- Largest company -- **ABBY** LS (Senior UX engineer, frontend developer)
- Building technology from scratch -- **Uploadcare** (Tech lead)
- Industry and asset management -- **Naviam, formerly ZNAPZ**
- Most ambitious -- **Arrival** (Lead frontend engineer)
- Complex data architecture -- **QUESTIONSTAR** (Lead frontend developer / UX engineer)
- Solving an impossible-looking problem -- Dressformer (CTO, Tech lead)
- Most fun -- ZIQ Design (Art director)

This is only part of my story. For brevity, I selected the most meaningful stages at this moment. Each of them has its achievements, difficult decisions and context, which I am ready to discuss in more detail.

Achievements

- Built complex products and technical platforms from scratch: from architecture and APIs to user experience and development processes.
- Led teams of up to 18 people while developing engineering culture and a healthy working atmosphere.
- Built professional teams from scratch.
- Worked in conditions of high uncertainty: quickly understood new domains, shaped technical direction and brought solutions to results.
- Developed specialized frameworks, architectures and tools for specific business needs.
- Built and optimized processes in the current AI paradigm.

Open Source

- **Symbiote.js** -- common purpose frontend library aimed to the complex meta-applications, widgets, micro-frontends and agnostic UI-libraries.
- **JSDA Kit** -- a comprehensive toolkit for building modern web applications with Static Site Generation (SSG), Server-Side Rendering (SSR), and dynamic servers.
- **CIT: Cloud Images Toolkit** -- a powerful toolkit for managing image collections directly in your codebase, with CDN integration, collaboration, image optimization and other advanced features.

Public Profiles

- └ [LinkedIn](#)
- └ [GitHub](#)
- └ [X.com](#)
- └ [Public CV](#)

Education

- └ [NTSU](#) (Novosibirsk State Technical University, Russia) -- Industrial Design

Hobbies

- └ Motorcycle touring
- └ Kayaking
- └ Outdoor programming

Summary

I have experience with public speaking, meetups, and DevRel activities. I try to keep the bigger picture in view without losing sight of product, business, and technical context.
